CISVA Continuity of Learning
Online Safety Guide for Students

1   Refer to local school's policy and procedures for on-line behaviour

2   Use only school-issued accounts for your schoolwork and communication with teachers.

3   Understand the difference between private and public spaces and behaviours - even though we are at home, the difference between private and public is important.

4   Because Jesus loves each one of us, consider how to grow in caring for others online as you care for yourself.

5   Be on time for online meetings, as you would for class.

6   Wear appropriate clothes, as you would for school events when not in uniform.
